

Economic Injustice: Bank of America, the biggest of the big 5 banks, leads the pack in illegal foreclosure practices, faulty loans, and tax evasion!

Investing in Dirty Coal: Over the past 2 years, Bank of America has invested over \$4.3 billion (more than any other bank) in the coal industry, poisoning Appalachian communities and adding to global climate change.

Un-American: As the official bank of the US military, Bank of America has been accused of improperly foreclosing on active-duty troops. Bank of America attempted to charge account holders a monthly fee for simple checking accounts. Banks got bailed out while the people got sold out!

WOMEN SAY TO B OF A:

- *Break up into smaller, safer banks!*
- *Stop funding dirty coal.*
- *Pay the statutorily required 35% corporate income tax.*
- *Reduce principal for all "underwater" homeowners.*
- *Invest in small businesses, the main source of jobs in the U.S.*
